HEATING & AIR CONDITIONING

## COMFORT AND EFFICIENCY WITH JUST A TOUCH.

It's a comfortable feeling knowing that you're in control. With American Standard Heating & Air Conditioning thermostats, you can set precisely the degree of home comfort you prefer and the level of energy efficiency you require. American Standard has a hard-working, reliable thermostat to suit every system and any budget, and each one puts control of your home's comfort at your fingertips.

### Programmable

#### Gold 800 Series

Gold 800 thermostats are focused on your comfort, and feature a humidity sensor, effortless 7 day programming and automatic changeover from heating to cooling.

#### Silver 600 Series

With the ability to control up to three heating and two cooling stages, the easily-programmed Silver 600 thermostats provide weekday/weekend scheduling and precise temperature control.

### Non-programmable

#### Silver 400 Series

The Silver 400 Series thermostats keep you comfortable with up to three heating and two cooling stages. They also offer air filter reminders, a backlit display and keys, and automatic changeover between heating and cooling.

#### Silver 200

A clear, easy-to-read display and backlit keys make the Silver 200 a smart choice. For your convenience, it includes an energy savings mode and automatic changeover between heating and cooling.

American Standard programmable thermostats help you manage your energy consumption for maximum efficiency with an energy savings schedule.

## Looking for an internet-enabled thermostat?

American Standard offers a full line of internet-enabled Connected Controls that enable you to see and set your home's climate from almost any web-enabled device. Nexia™ Remote Climate Access is included with every AccuLink™ Platinum 1050, AccuLink™ Platinum 850, Gold 824 and Silver 624 Control. Now, you can connect with your home and family, even when you're away. For more information ask your local independent American Standard Dealer about Connected Controls and Nexia.

## Our dealers will put you in your comfort zone.

Your independent American Standard Heating & Air Conditioning dealer is a highly trained professional with years of experience who'll work with you every step of the way in choosing the system that's right for you – from walking you through the entire purchasing process to conducting an in-depth analysis of your home and your comfort needs. Based on that information, your dealer will recommend a system that works best for your home. After all, the more efficient the system, the more comfortable you'll be.
